YOUNG FOREVER

***“The sculptures of Cécile B are luminous, colourful, full of hope and love! ”  
(Curator, François Pompon Museum)***

French pop artist Cécile B's bold, contemporary sculptures seamlessly combine two very different worlds – high end luxury and childhood innocence. Each is characterised by a purity of line and a sleek, reflective finish which lend a sophisticated edge to the ingenuous subject matter. Created, designed and hand-crafted in France, they represent an intersection of style, humour and empathy, and have been charming audiences around the world since 2005.

In addition to her status as a highly acclaimed sculptor, Cécile B has herself been the recipient of numerous prizes, and her work is in an impressive array of collections in museums, high end hotels and corporations including Monad Terrace Miami, Baccarat Hotel New York, François Pompon Museum and Daubigny Museum. In 2013, she was named Chairman of the Sculpture Department of the Société Nationale des Beaux-Arts, the first female artist to be offered this prestigious appointment.
