

SARALIS

# AL SARALIS

The luminous and lyrical figurative paintings of Al Saralis are composed around a solitary figure set against a backdrop which is deliberately stripped of narrative. They have a haunting beauty and an enduring, almost other-worldly fascination which, time and again, evokes a deeply personal reaction from viewers.

Al's work has been featured widely in the press since he was named as one of the top 10 British artists to invest in by leading USA art publication 'Complex'. Most recently he was featured in Creative Boom magazine for his moving and beautiful portraits.

**Al undertakes a limited number of personal portrait commissions in a year and a small number of spaces is now available for 2021. If you would like to take this opportunity please call your gallery today for details.**
