

DOM PATTINSON

DOM PATTINSON

Playful and thought provoking, Dom Pattinson's work resonates with energy, colour and a certain subversive charm.

As a travelling art student, Pattinson was struck by the power and impact of the propaganda art on the city walls of the then Soviet Union and Northern Ireland – not by the messages themselves but by the way these artists created a dialogue with the viewer. He uses his artworks to convey his own messages of positivity and peace.
