

NEW WORKS FROM

M A Y A

We are pleased to present an evocative series of forest scenes, florals, seascapes and abstracts from Canadian-based artist Maya.

“I love to paint and my art is my way of transferring this positive energy to others. I want to share the warmth of the afternoon, the smell of the exotic flowers, to invite the viewer to come and wander along with me through the sunlit woodlands.”

Originals

While each work is intricately detailed and complex, when viewed from afar the combination of colours and textures falls into sharp relief to reveal scenes of great clarity and contrast.
